

AIST AI Cloud (AAIC)

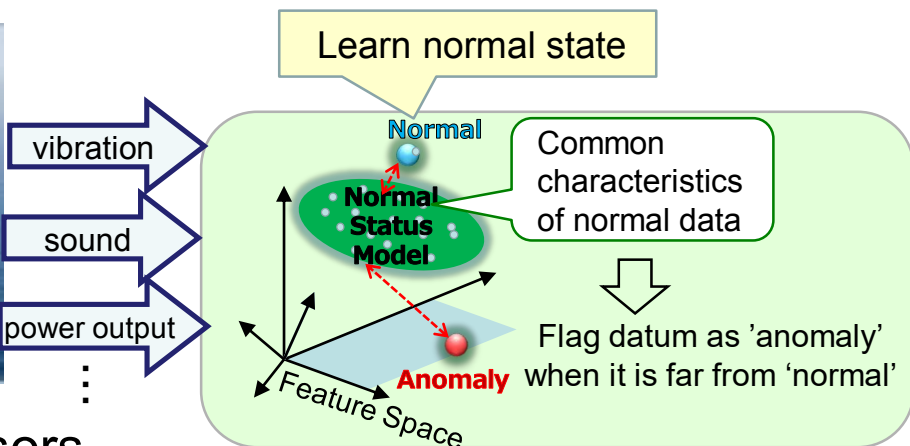

- **400x NVIDIA Tesla P100s and Infiniband EDR** accelerate various AI workloads including machine learning (ML) and deep learning (DL).
- Advanced data analytics ecosystem leverages on **4PiB shared Big Data Storage and Apache Spark**.
- **AAIC will be operational from 1Q 2017.**

Application Example: Monitoring Wind Power Station

Multi-modal sensors

*Field-test:
The system detected anomaly
before the field experts*
